51 individual groups and events

614 individual groups sessions

We build partnerships with families and community by delivering services which enrich lives and shape our future.

Our Philosophy

Boundary Family Services (BFS) is dedicated to providing participants with high quality services using a person centred approach that empowers them to define and set goals and assists them to build on their personal strengths and supports.

Boundary Family Services is a CARF Accredited Agency
Commission on Accreditation of Rehabilitation Facilities

“Thank you for allowing me to see my strength once again, and to feel like I am connected.”

What happened during the year...

- Boundary Family and Individual Services Society changed it's name to Boundary Family Services
 - Boundary Family Services launched a new, easy to navigate website—www.boundaryfamily.org
- New partnerships housed in the Glanville Centre include the Options for Sexual Health Clinic (OPT) and Clinic space for Dr. Dressler's prenatal care patients
- Staff participated collectively in over 65 individual, formal training opportunities. This allowed for staff to share new knowledge and ideas throughout the agency
 - Groups were very well attended. These groups included early years groups such as Baby's Best Chance and StrongStart, after school sports and arts programs, Mother's Mental Health groups, cultural groups and parenting programs
